WORK EXPERIENCE

QA Engineer
OnnoRokom Projukti Limited • OnnoRokom Group

01/2026 - Present — *Karwan Bazar, Dhaka*

EdTech SaaS & ERP Platform

- Conducted end-to-end functional, workflow, and integration testing across multi-tenant educational SaaS & institute ERP systems.
- Validated complex institutional workflows: role-based access control (RBAC), student lifecycle, fee billing automation, and high-volume data reporting.

Assistant Software Quality Assurance Engineer
OnnoRokom Software Limited • OnnoRokom Group

12/2022 - 12/2025 — *Karwan Bazar, Dhaka*

- Executed comprehensive test planning, automated regression suites, API validation, and performance benchmarks for high-traffic SaaS/ERP web systems and mobile applications.

PROJECTS

Mobile App Test - Android & iOS

- Executed comprehensive functional and regression testing for the **Udvash-Unmesh** and **Uttoron** mobile applications.
- Validated critical EdTech features including real-time video streaming, MCQ/Written exam engines, and automated result processing across diverse mobile OS versions.

Payment System

- Developed a comprehensive test plan outlining testing scope, resources, timelines, and methodologies.
- Executed non-functional testing including performance, load tolerance, and security assessments (SQL injection, XSS prevention).
- Facilitated UAT to ensure payment processing reliably meets business needs and user expectations.

Q&A System

- Developed and implemented software test plans and strategies.
- **Functional Testing:** Validated question submission, answer retrieval, search functionality, and multi-device compatibility.
- Ensured smooth payment workflows for teacher question answers.

Exam System

- Performed functional testing for various exam types (MCQ, Written, Online Written, Templated Written).
- Performed functional test of internal desktop PC software used to process the entire exam evaluation cycle.

EDUCATION

Bachelor in Computer Science & Engineering
State University Of Bangladesh

01/2016 - 10/2021 — *CGPA: 3.62 / 4.00*

Final Project: Book Sharing Platform

SKILLS

Manual Testing | API Testing: Postman & API Dog | Web Automation - ReqNRoll BDD (.NET) | Selenium WebDriver (C#) | Security: Burp Suite Community | Performance: JMeter | Git & GitHub Actions | Languages: C#, TypeScript, JavaScript, Python | Desktop Automation (Electron)

PERSONAL PROJECTS

AI-Powered Android Meeting Summary
Native Android app in **Kotlin** with real-time audio recording, offline speaker diarization, voice memory, and automated AI meeting summaries with action items.

API MaMU
Desktop API client for Windows built with **TypeScript & Electron**. Complete offline Postman alternative featuring OAuth 2.0 PKCE, bulk-edit, full **pm.* test scripting** engine compatibility, timeline diagnostics, and JSON tree filtering.

Browser Football — 1v1 Multiplayer
Top-down 2D multiplayer soccer game built with **Node.js & WebSockets**. Features authoritative server physics, client-side interpolation, autonomous bot AI, auto-keeper deflection logic, and dynamic referee foul/penalty detection.

Jayga-Jomi (Land Info & GIS Survey CAD)
Full-featured browser GIS land measurement, Mouza map vectorization & cadastral survey platform. Engineered 19+ client-side tools, **925+ automated test suites** (100% pass), Sauvola watershed polygon contouring, Umeyama sheet joining, and Islamic/Hindu inheritance distribution engines.

Gherkin Collector V-5.0
Chrome extension that auto-generates Gherkin feature files, locators etc. to accelerate automation scripting in **ReqNRoll (.NET)**.

BugSteps Recorder 1.0
Chrome extension that records user interactions, network requests, and environment context to help QA teams reproduce bugs quickly and accurately.

ACHIEVEMENT

Attended four Inter University Programming Contests (IUPC) and two ICPC Preliminaries.

SQA and Cyber Security Certification
(02/2022 - 05/2022) — *IT Training BD*
